Re: CalFed Water Plan

Dear Mr. Snow:

Water is our most precious resource in California. Right now, a decision vital to our future needs your attention.

I urge you to ensure that CalFed creates and selects a "Smart Alternative" (a 4th alternative) based on conservation and restoration to provide ample, high-quality water for California's families, wildlife, farms and businesses into the 21st century. The "Smart Alternative" would:

- Ensure effective conservation programs and economic incentives to use our water more efficiently.
- Maximize water efficiency before even considering costly new dams, reservoirs and canals.
- Restore and protect our watersheds and groundwater basins for high-quality, reliable water for people and wildlife.
- Restore California's fish, birds, wetlands, rivers, delta and bays.

Please enter the above comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement. Thank you.

Sincerely,

ROBERT NATION
